Dear Mr. Johnson,

On December 11, 1989, Systech Environmental Corporation re-
jected a load of material from Petroleum Recycling Corp.
of Signal Hill, CA.
The material was rejected due to PCB contamination.
266 ppm PCB Archlor 1248 was found in the load.
The load was returned to the generator.
If you have any questions, please feel free to contact me at
the Lebec plant.

Sincerely,

Systech Environmental Corp.

Sharon Soliz
